Warm your worries away

Here at Clock Woodburners we are passionate about designing and building efficient, effective and stylish stoves. But choosing a stove is about more than just how it works and what it looks like, it's about how it makes you feel.

Warm, cosy and secure is how you deserve to feel at home, and creating this feeling is at the heart of everything we do. Our aim is to create a range of stoves, all designed and built here in the UK, that not only lift your spirits and warm your toes, but leave you secure in the knowledge that you have chosen a highly efficient stove that is built to last.

Our very first stove was built in 2016 following a commission by Blithfield Hall, a Grade 1 listed private home in Staffordshire. The stove was a great success and led to the development of our first production-line model which we named the Clock Blithfield 5.

Through our growing dealer network and customer base we listened to feedback and next developed the Clock Blithfield Compact 5, a smaller, but no less perfectly formed, version of its big sister the Clock Blithfield 5. We were over the moon when this stove beat all its market rivals to be named Wood Log or Multi-Fuel Appliance of the Year at the 2018 Hearth & Home Exhibition, not bad for the new kid on the block!

We have also recently unveiled the Clock Double Sided. We believe this stove is the first double-sided stove on the market that is fully 2022 compliant. With crystal clear glass for a superb view of the warming, flickering flames which, incidentally, burn 70% more efficiently than the 2022 legislation actually requires.

You can find full details of the full Clock Woodburners' product range over on our product pages. Better yet, go and see the stoves in action for yourself at one of the 185 Clock dealers across the UK – find your nearest over on our Dealer Locator.

clockwoodburners.co.uk

Features Include:

Designed to be enjoyed

All our stoves are designed and built for you here in the UK. And that's everything from parts fabrication, assembly and hand-finishing – it's all done here in the UK. Plus, packaging, shipping, after-sales care and customer services – well that's all managed here by us in the UK too.

First-class service

With a hand-picked network of dealers and showrooms across the UK we are confident you are only a short trip away from viewing your new Clock stove in action. All our dealers have been chosen because, like us, they have a proven track record of first-class customer service and reliability. They will offer you the best advice to suit your home and your lifestyle. So confident of this are we, that if a Clock stove isn't right for you we are happy for them to recommend the stove that is.

"It is a pleasure to be able to introduce you to our growing range of stoves. We believe that time spent choosing, buying and enjoying a Clock Woodburner is time well spent and it is our aim to ensure that the process is a pleasure from start to finish. You can be assured that a Clock Woodburner is built to the very latest specifications and designed to bring you years of pleasure. So why not visit your local dealer today and welcome home a Clock Woodburner?"

Find a dealer

There is no better way to decide on your perfect stove than seeing it in action.

We have carefully selected some of the best fireplace and stove retailers in the county to showcase the Clock range and we are absolutely confident in their ability to offer you the best advice on choosing and installing a new stove.

185+ Installers

Clock Woodburners has a growing list of approved retailers situated across the length and breadth of the UK.

Approved retailer network

We pride ourselves on customer service and want you to really enjoy choosing your new stove. All our approved retailers will be able to advise you on your choice of stove, carry out a home survey, install and then maintain your new Clock stove.

Free quotations

Your Clock retailer will offer you a free, no-obligation quotation for your chosen model to include flueing and installation. You can even send them a request now by entering your postcode, clicking on your nearest retailer and completing the online enquiry form.

Showrooms

Many of our retailers have fully-fitted showrooms and will be able to demonstrate your chosen product up-close and burning – the very best way to appreciate the stunning flames a Clock stove produces.

Working in partnership with our approved dealer network

Your retailer will be able to advise on the right size stove for your property, the best fuel type to suit your lifestyle, demonstrate the features of your chosen stove and offer a detailed break-down of the price including flueing materials and installation. As a manufacturer we work closely with all of our retailers and listen to their feedback and value their judgement. We also strive to help build their business which is why you won't find us selling our stoves over the internet – we believe in protecting your local retailers.

We understand that choosing a stove that will sit at the heart of your home takes time and can be confusing. So confident are we in our retailer's ability to give you the best advice that if they feel a Clock stove isn't the right choice for you, we encourage them to recommend the one that is.
